## PEABODY MUNICIPAL LIGHT PLANT SPECIFICATIONS

### LINE CONSTRUCTION AND MAINTENANCE SERVICES

The Peabody Municipal Light Plant is accepting sealed proposals for electrical distribution system construction and maintenance services. It is the intention of the Peabody Municipal Light Plant (PMLP) to retain contract lineworkers to perform line work on high voltage facilities up to 23 KV. This will include emergency response, routine operation and maintenance work as well as capital improvement work. The contract for services will be valid for a one year period and may be extended, by mutual agreement, under the same terms and conditions for an additional period of up to one year.

There shall be no minimum requirement by the PMLP for services under this contract.

The proposal must be accompanied by detailed descriptive information sufficient to enable a comparative evaluation of the services being offered.

The contractor shall furnish all labor, supervision, tools, equipment, fuel (no provisions for fuel cost adjustments), insurance and transportation necessary to perform tasks as assigned. All materials will be provided by PMLP. The Contractor shall submit bills on a bi-weekly basis in accordance with the price schedule set forth in the bid proposal.

The contractor shall supply, *as part of the bid package*, a rate schedule (including minimum charges- if any) for all additional equipment that the contractor has available for line construction work that is not normally included as part of the rates specified in Items 1 through 4 of the Bid Proposal Form. Typically this would include motorized equipment such as extended reach and/or off road trucks, excavating equipment, trailers (including pullers, chippers, compressors and tensioners) as well as gasoline/diesel powered equipment such as generators, pumps, compactors, etc. Tools and equipment normally used by line crews as part of routine work such as jumpers, phasing kits, high voltage testers, presses, dies, shotgun sticks, switch sticks, other hot sticks as required, etc. shall be provided as required at no additional charge. Single and three sheave blocks/rollers (including those used for Hendrix, spacer and aerial cable installation) shall be supplied at no additional charge *unless* they are listed in the aforementioned additional equipment list.

Digger Derricks used only at the end of a day to load equipment for the next day's work will only be billed for the actual time used. Contractor's equipment stored at PMLP will not be billed to PMLP except when the equipment is used. Equipment not used on a daily basis (i.e. digger derricks, trailers) will only be billed on the days used. Exceptions may be granted, at the sole discretion, of the Superintendent of Electric Distribution, for specialty equipment such as cranes, off road equipment, high rail equipment, or for equipment leased or rented exclusively for work for the PMLP.

All work shall be performed under the general direction of the Superintendent of Electric Distribution and the Assistant Superintendent of Electric Distribution.

Generally, the work assignments will involve tasks normally performed by First Class Linemen. The contractor shall provide employees with the appropriate skill sets, training and certification to perform the tasks assigned including rubber gloving on an energized 23KV system. Typical work assignments may include digging holes, setting poles, framing poles, pole top transfers, installing transformers, running lines and related tasks. In accordance with PMLP Switching & Tagging Procedures, may perform the opening, closing, phasing, tagging and grounding of high voltage switches, circuit breakers and other equipment, of all voltages, as assigned with PMLP personnel present. All construction shall conform to PMLP construction standards and specifications as well as all applicable electrical construction and safety codes including, but not limited to, the most current edition of the National Electric Safety Code . Any work deemed unacceptable by PMLP shall be rectified by the contractor at their expense.

The contractor is responsible for providing safety training to its employees and they shall, at all times, adhere to the requirements of all Federal, State and Local regulations as well as the APPA Safety Manual (16<sup>th</sup> Edition) at a minimum.

The PMLP has had an Arc-Flash Study performed on its Primary and Secondary Distribution System. The results of the study have shown that in some circumstances Lineman are required to wear Arc Flash protection greater than the standard Hazard Risk Category (HRC) "2" (8 calorie/cm<sup>2</sup>) Flame Resistant Clothing (FRC) while working on the PMLP system. While the PMLP strives to limit the frequency as well as the duration of this type of work, the contractor will be expected to perform work that requires the use of HRC "3" and HRC "4" FRC. As with all safety equipment, the contractor will ensure that their workers have the appropriate level HRC FR clothing to protect them while working in these situations.

The PMLP uses a "Troubleman" concept in their Line Department whereby a lineworker working on his own acts as a single person crew and will fill off-hour shifts, be a first responder to all types of trouble calls and perform routine, non-emergency, (non-primary voltage) maintenance. Typical duties may include (but not limited to); Street light repairs and replacements, Install, repair and replace services, Operate high voltage switches and equipment, Replace primary fuses, Clear downed lines and failed equipment, Incidental tree trimming, etc. The lineworker will, depending on the nature of the trouble, repair, on their own, or with other lineworkers, problems that are encountered. Although the PMLP does not require its line contractor to offer this service it does give preference to line contractors that offer this service. If a line contractor bidding on this proposal offers this service, the rates should be included in Item 4 of the Bid Proposal Form. Otherwise the bidder should insert "N/A" in this section of the bid proposal form. By posting rates in Item 4 the contractor agrees to supply a single worker with line truck to work as a "Troubleman" on his own as described above when requested by PMLP.

Crew drivers must have approved and active Commercial Driver's Licenses. Crew members required by the Commonwealth of Massachusetts to maintain a Massachusetts Hoisting License to perform their job functions will maintain these licenses. Copies of licenses must be on file with the PMLP. The contractor shall report in and out, on a daily basis, with the Superintendent of Electric Distribution or his designee. Daily written Work Reports shall be submitted to the Superintendent, on a PMLP approved form. Daily Work Reports shall include the names of employees working that day, the number of hours worked for each employee, any equipment used which will be billed, the work accomplished, including PMLP Work Order Number (if applicable) and any materials that were used.

Any police details, permits, permissions, flagmen, etc. will be arranged for and paid by PMLP. The contractor will be responsible for signing police detail forms and verifying police time spent on the job. The disposition of any used materials and hardware shall be as directed by PMLP and shall remain the property of PMLP. Any material to be disposed of shall be at the expense of PMLP. Dig Safe notifications and ticket numbers will be the responsibility of PMLP. Any deviation from Dig Safe pre-marking must be approved by the Assistant Superintendent of Electric Distribution and it shall be PMLP responsibility to make appropriate notifications to "Dig Safe".

The contractor shall provide a means of communication from PMLP dispatch to the contractor's crews. PMLP may elect to provide a PMLP two-way radio to be temporarily installed in Contractors vehicle(s).

The contractor shall carry "Railroad Insurance" as required, when required to perform work on railroad rights of way within the PMLP service territory. The contractor shall be reimbursed by the PMLP for this coverage as it relates to the contractor's work performed for the PMLP. The contractor shall also have available, suitable equipment to perform tasks assigned under this contract from railroad beds and shall provide details of available equipment and rates in their Proposal.

The Contractor shall perform any "incidental" tree trimming necessary to accomplish assigned tasks. PMLP shall provide tree trimming services for more comprehensive requirements. This shall be at the discretion of the PMLP supervisor.

The Contractor shall **guarantee** PMLP "rights of first refusal" before sending their crews elsewhere during emergency/storm restoration work or standby. The proposal shall include rates for personnel and equipment for emergency off-hours work. Contractual requirements and expenses between the contractor and their crews shall be the sole responsibility of, and borne by, the contractor unless included in this proposal. A minimum of two (2) two-person crews, made up of qualified first class Linemen, shall be available for both routine and emergency work. **This minimum compliment will be available at all times, including those periods when the contractors crews are not currently working for the PMLP on a regular daily basis. Additionally, the PMLP will have rights of first refusal on this minimum compliment even when the contractor's crews are not currently working for the PMLP on a regular daily basis. The**

Contractor's representative must contact the Superintendent of Distribution (or his designee) prior to committing the aforementioned minimum compliment to work elsewhere during a storm or other emergency. Each crew shall be supplied with a fully equipped bucket truck. At least one digger/ derrick shall be made available. PMLP shall not be billed for any man or equipment hours lost due to Contractor's equipment failure.

Work hours shall be five eight hour days per week, 0700- 1500 daily unless otherwise agreed. If a change of hours is agreed to by both parties, it can be rescinded by either party with 2 weeks' notice to the other party.

Any customer outages required will be coordinated through the PMLP Supervisor.

The conduct of the Contractor's employees shall be maintained at the standard required of the employees of the Peabody Municipal Light Plant.

In the event that any customer equipment is damaged as a direct or indirect result of contractor negligence, the PMLP will attempt to make the customer whole in the most expeditious manner and will bill the contractor for its expenses.

Contractor shall provide PMLP with contact information which guarantees contact with contractor's representative 24 hours per day, seven days per week, and 365 days per year.

Contractor shall provide PMLP, as part of this bid, a list of the current hourly rates for all crew compliments requested in the Bid Proposal Form along with an explanation of any and all situations when premium rates will be applied (such as overtime or double time). This can be in the form of a Union Contract, Employee Handbook, Employee Manual, Memorandum, etc.

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule from the Department of Labor Standards ("DLS") if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
- All apprentices working on the project are required to be registered with the Massachusetts Department of Labor Standards, Division of Apprentice Standards (DLS/DAS). Apprentice must keep his/her apprentice identification card on his/her person during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DLS/DAS regardless of whether or not they are registered with any other federal, state, local, or private agency must be paid the journeyworker's rate for the trade.**
- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule. Awarding authorities are required to request these updates no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. Contractors are required to obtain the wage schedules from awarding authorities, and to pay no less than these rates to covered workers. The annual update requirement is not applicable to 27F "rental of equipment" contracts.
- Every contractor or subcontractor which performs construction work on the project is required to submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. A sample of a payroll reporting form may be obtained at <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may report the violation to the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
- Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule from the Department of Labor Standards ("DLS") if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
- All apprentices working on the project are required to be registered with the Massachusetts Department of Labor Standards, Division of Apprentice Standards (DLS/DAS). Apprentice must keep his/her apprentice identification card on his/her person during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DLS/DAS regardless of whether or not they are registered with any other federal, state, local, or private agency must be paid the journeyworker's rate for the trade.**
- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule. Awarding authorities are required to request these updates no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. Contractors are required to obtain the wage schedules from awarding authorities, and to pay no less than these rates to covered workers. The annual update requirement is not applicable to 27F "rental of equipment" contracts.
- Every contractor or subcontractor which performs construction work on the project is required to submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. A sample of a payroll reporting form may be obtained at <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may report the violation to the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
- Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and
